

22-48 KILOWATTS

Ideal for homes requiring higher kW backup for amenities such as additional living areas, garages and air conditioners, pools, greenhouses, guest houses, mother-in-law suites, medical needs and more. Businesses gain a competitive advantage from the backup power of a QuietSource generator—restaurants, gas stations and other small and medium sized businesses can remain open for business while competitors have to shut down.

- Powered by Generac's powerful, low-speed, liquid cooled engine, engineered to run at only 1800 rpm for a substantially quieter generator, consuming less fuel and giving both the engine and alternator a longer life
- Easily connects to existing LP or natural gas fuel supply; quickly convert in the field for up to 45kW
- Packs more power into a smaller footprint than competitive models
- Aluminum enclosure with RhinoCoat™ finish for superior weather protection

Model	QT02224ANAX	QT02724ANAX	QT03624ANAX	QT04842ANAX	QT04842ANAC
Rated Power (LPG/NG)	22/22 kW	27/25 kW	36/35 kW	48/46 kW	48/46 kW
